Description

For this training there are up to 4 boat classes available. Please select your boat class after choosing your training date.

The Segelwelt.at sail trainings are for many sailors the start into the new sailing season and the first test after a long winter break.

In Izola we train on **Seascape/First 18** (planing keelboat with gennaker), **Seascape/First 24** (plaining keelboat with different Gennaker), **Seascape/First 27** (plaining keelboat with different Gennaker and Code 0) and **FarEast 28R** (keelboat with gennaker) boats.

Target groups: ambitious cruising sailors of all levels. Racing sailors beginners and advanced.

After a sailing day (optional) to become familiar with the boat we spend three intense training days on the water. The training days start with a briefing, followed by training sessions of about two to three hours.

We finish the day with a theory unit including photo and video analysis. Special topics will be discussed in working groups.

We recommend every participant to schedule with the optional sailing day to become familiar with the boat, specially after a long sailing break.
