Description

Goodbye bulky containers. The ORTLIEB Water Sack ensures reliable water supply in your camp doing without big and bulky canisters. On tour the Water Sack can be packed away taking up very little space, in the camp it offers a generous 10 litres for cooking, washing or even for a shower. The large roll closure opening allows easy filling. The Water Sack is made of tear-resistant, waterproof fabric, and the integrated base valve allows easy metering. The Watersack can be combined with the purification filter by Katadyn.

Features:

- Buckles for hanging
- Combination with Katadyn filter possible
- Volume: 10 L

Advise:
The Water Sack is not suited for transportation in horizontal position. For transporting water inside a pack or pannier we recommend our Water Bag or Water Belt.

All water containers are suited for water only (max. temperature 60°C/140°F). Do not use for alcoholic, sweet or acid liquids. Do not expose drinking water too long to the heat. Change water regularly. Store dry and open. Clean inside with denture cleaning tablets. Clean outside with warm water, brush and neutral soap. Clean the valve regularly.
