Life Rafts: OCEAN ULTRALITE - less than 24 hr pack

Description

The Ocean UltraLite liferaft utilizes carbon composite technology to achieve an amazing 30% weight reduction, compared to the traditional range of Ocean ISO liferafts.

This next generation of liferafts offers the obvious benefits of a light weight solution for yacht designers but most importantly larger liferafts are now easier to handle and deploy.

With an up to 24 hour survival pack a 10 man canister UltraLite weighs little more than a 4 man valise liferaft.

Features:

- Water ballast that exceeds ISO requirements: 6 & 8 man = 4 x 75L = 300L & 12 man = 6 x 75L = 450L
- SOLAS approved lighting systems
- 3 year service interval
- Rain water collection
- Observation port
- Pictorial instructions printed on the raft
- Designed, tested and manufactured in the UK
- Up to 24 hour pack included
- Meets requirements under current MCA Code of Practice, Class XII and ISAF Special Regulations
- Made in England
- **Boarding:**
Ladder with aluminium tubes for better purchase, full knee scoop with grab handles mid way and at the top, hand over hand ladder extending internally.

Liferaft Capacity	CONTAINER		Standard ISO liferaft (kg)
	Weight (Kg)	Dimensions (mm)	
6 person	28	788 x 518 x 280	42
8 person	35	788 x 518 x 280	46
10 person	36	788 x 518 x 280	52
12 person	39.5	788 x 518 x 360	56

VALISE			
Liferaft Capacity	Weight (Kg)	Dimensions (mm)	Standard ISO liferaft (kg)
6 person	25	760 x 450 x 260	42
8 person	32,5	760 x 450 x 260	46
10 person	33,5	860 x 450 x 270	52
12 person	37	860 x 450 x 270	56
