Description

This latest development of FSE Robline® closes the performance gap between the High Tech Performance and the previous Cruising products. Sirius 1000 combines several advantages of the Performance range products with a price/performance ratio known only from polyester products. Furthermore, it achieves optimal elongation values at the typical working loads that ropes are exposed to on Performance Cruising yachts.

Price per meter incl. VAT.

Diameter	Breaking Load	Weight
mm	daN	g/m
6	1340	27
8	1500	35
10	2400	67
12	3100	73
