Description

The Kru XF Junior lifejacket is ideal for children weighing 15-40kg with its 115 Newtons of buoyancy but is approved to the higher 150 Newton standard (proportion of 150 Newtons relating to size).

The lifejacket comes with an integrated crotch strap for extra safety, a contoured neck for additional comfort and in-water support and an improved floatation angle in the water and height adjustment tunnels on the rear backstrap.

The XFJunior comes in automatic version only which means that the lifejacket will inflate on water entry but there is also a manual override handle in the unlikely case of an emergency.

Features:

- Easy front donning
- Side adjustment for bespoke fit
- Stainless steel D-ring for safety harness
- Single crotch strap eliminating ride up
- Durable Outer cover
- Single back strap

- Contoured neck for additional comfort and in water support
- ISO approved
- AIS ready
- Automatic inflation
