Description

The new Antal QR clutch allows you to release a maneuver even under its maximum load. Traditionally, clutches need to be winded up and pre-tensioned on a winch drum, loosing precious seconds. QR lets you open the handle and release the power, without the aid of a winch.

Features:

- opens even under it's maximum load
- high hoding power (Double V-Grip)
- differnte versions available
 - Standard: traditional mounting
 - Mounting Plate: When it is not possible to access the mounting studs from the bottom side of the clutch (for example, when mounting on a mast)
 - Side Mouning: The same model can be mounted on either the left or the right side.
- Screws included

QR Standard
