Description

The LED C-Strobe is a manually activated personal distress strobe light with dramatically improved operating life. This waterproof light is tiny yet rugged, and features a 45 lumen LED that typically operates for 120 hours continuously. The C-Strobe has been USCG/SOLAS approved, and is manually activated with an easy twist on/off activation, making it an ideal light for all outdoor enthusiasts.

Features:

- for location assistance during low-light emergencies
- exceedingly bright 45 Lumen White LED
- extensive continuous operating life of greater than 120 hours
- waterproof – Tested for 24 hrs at 3.3 ft. (1m)
- easy twist On/Off activation
- impact resistant case
- uses two “AA” 1.5V batteries (not included)
- USCG/SOLAS Approved
- ideal for life jackets, camping, biking, auto, etc.
- included Velcro® strap (with carded version) used in conjunction with integral lashing loops for mounting flexibility
- included PFD clip (with carded version) for easy attachment to oral inflation tube
