### Description

Ocean Signal has developed the AIS Alarm Box to ensure that everyone on the vessel is alerted to a possible Man Overboard (MOB) or a crew in need of rescue. Providing visual and audible indication, the waterproof Alarm Box receives NMEA0183 input from an AIS receiver and detects

all received or specific AIS SART and MOB devices, including Ocean Signal's award-winning rescueME MOB1.

**Merkmale:**

- Detects AIS MOB and AIS SART devices
- Waterproof (for external mounting)
- Multiple tones to identify source
- Alarms on all received or specific targets
- NMEA0183-HS (38400baud) input
- Programmable with up to 10 individual device MMSI numbers
- NMEA through-port for easy integration
- Supplied with power and USB cables
