### Description

This is the bottle that put Nalgene on the map. It's design appears simple but there are over fifty years of manufacturing experience that go into creating a super durable, Leakproof bottle that is guaranteed for life.

Graduations help you keep track of your fluid intake or serve as a useful guideline when mixing up a beverage in your Nalgene.

Most backpacks have a pocket on the side to hold a bottle and those pockets were designed to accommodate a Nalgene bottle because hikers have trusted Nalgene for over twenty years.

**Size:** 500ml

**Features:**

- made of Eastman Tritan™ copolyester, BPA Free
- Dishwasher safe (top rack only) Just make sure the cap does not touch the heating element
- Everyday bottles have superior impact resistance and are suitable for both warm and cold beverages
- Convenient loop-top design means you'll never lose the lid
- Wide Mouth makes adding ice cubes a snap
- Opening accommodates most water filters
- Marked with milliliters and ounces for easy measurement
- Made in USA
