Description

Crew is a boat shoe by Lizard. The upper is in mesh and PU with an abrasion resistant rubber reinforcement over the toes. Its Vibram rubber outsole is made of a special, non-marking marine compound with brake system to assure maximum grip on both dry and wet surfaces; its particular structure makes water drain quickly and improves ventilation inside the shoe. Its synthetic fabric and the removable, pierced footbed are quick-drying.

Features:

- Womens' fit: from size 35-42.
- SOLE: exclusive A-Clima sole with non-marking marine Vibram® rubber.
- FOOTBED: anatomical and removable, breathable, lined in mesh.

- UPPER: quick drying, breathable mesh and PU nubuk. Abrasion resistant toe protection.
