Description

This nautical boot is designed for maritime professionals.

Features:

- Reinforced with Kevlar® fibres at the ankle, toe and heel, this sturdy and comfortable boot provides excellent protection.
- Shorter than a boot, it is easy to put in.
- Its non-slip sole is specially designed for damp surfaces and adapted for use in a variety of maritime professions.
- This boot is handmade in France by our master rubber craftsmen in France.
- A working boot conforms to EN ISO 20347: 2012 OB E SRC (tests performed by the CTC).
- Upper: comfort, resistance, flexibility
- polyamide lining for a fast drying

Stiefel: Aigle Brea Bottillon Rubber Boot
