### Description

The new Scout Sea-Connect wideband antenna provides coverage for 3G/4G/LTE and WLAN systems in a compact and waterproof design, ideal for any type of boat.

Excellent performance with VSWR less than 1.5:1 in all 3G and 4G bands.

With all these properties the Sea-Connect is the perfect external antenna to link to a 3G/4G router on board, enabling internet connectivity on board also during the navigation on the open sea.

### Features:

- Easy to install both on standard 1" x 14 threaded mount model [PA-40](#) and on deck as a permanent, through-hole mount solution (onto a non-metal surface or enclosure).
- The UV stable casing provides outstanding corrosion resistance in the harshest environments.
- The antenna terminates in an N type female connector.
- Suggested coaxial cable for the installation: LMR-400 or similar.
- Full Band (698 – 2700 MHz)
- Excellent performance in all 3G and 4G bands

- Designed for marine use
- Omni-directional antenna 4 dBi Gain
- Easy to install (mount/deck)
