Description

Private Sale! - Settlement takes place with the owner

This is a very rare opportunity to get hold of a huge, strong and fast workboat RIB. Very high quality built. It was designed and used as a chaseboat and weatherboat for the Americas Cup. Offers huge storage for sails. It can reach up to 68kn boatspeed due to a heavy-duty engine-drive combination.

The boat was stored unused for almost 14 years, and was recently refitted- rebuilt back to original state. Very strong towing points included in the structure for towing. It is in excellent condition and is ready to be used. The asking price includes a brand-new CE Certificate if required. The boat is located in Valencia.

Features:

- huge storage for sails
- very strong towing points
