Description

The Catalina 340c produces 53 liters of water per hour, making it the perfect watermaker for the midsize yacht with two to four people onboard.

The Catalina uses the Spectra Magdrive feed water pump, making the system extremely quiet, energy-efficient, and reliable.

Features:

- Simple analog control panel
- Compact modular design
- Spectra's unique Clark Pump for efficiency and reliability
- Low power consumption, can be run on batteries, solar, or wind power
- Whisper quiet

- Commercial grade diaphragm pumps with run dry protection
- System includes installation kit, handheld water quality tester, and product sample valve
- Designed to operate efficiently from the Arctic to the Equator
- Z±ION Compatible
