Description

QUICK HRC is the new Quick range of multipurpose hand-held remote controls, designed to for remote operation of various on-board electrically operated equipment such as cranes, gangways, windlasses, sea ladders etc. HRC is constructed with rubber inserts to ensure high strength, long durability, perfect watertightness, and a secure grip.

HRC remote controls are supplied complete with a connecting cable extensible up to 4.2 metres, a watertight deck plug and socket, and a support bracket for stowing after use. Available with or without built-in LED lamp. HRC units are maintenance-free. HRC is a patented product.

Channels	Current capacity of contacts	Torch supply voltage	torch power absorbtion	weight without light	incl. cable & socket
