Description

The lightweight and highly durable Soft Shackles, made of Dyneema® SK78, can be used flexibly, even in hard-to-reach places. The main advantage of these shackles is that they are many times lighter than conventional metal shackles. Furthermore, they can be opened without any problems even after being loaded. On the other hand, they cannot open unintentionally under load.

Price per shackle incl. VAT.

Size	Breaking Load daN	Ø x Length mm
XS	700	2 x 50
