Description

Dyneema® without creep

This high-tech fiber from Dyneema® is the first UHMWPE material with “zero creep”. This makes this fiber and the products made from it ideal for all applications in which a defined length is to be maintained under constant load. The coating has been optimized for maximum UV protection.

Material: DM20

Diameter [mm]	Length [m]	Weight [g/m]	BL [daN]
2	100	2	400
3	100	5	800
4	100	8	1600
5	100	11	2300
6	100	17	3200
