Description

Built to a stringent standard, the robust HT-20 is designed to shrug off wind, rain and salt water to give you years of trouble-free use. You can depend on it.

Key Features

- 2000mAh Lithium battery technology
- Fully submersible IP67Robust MIL-STD construction
- Simple and intuitive operation
- High visibility back-lit LCD
- Exceptionally loud audio
- Robust multi pin accessory connector
- All USA, International, and Canadian marine channels
- 36 Private channels
- Lightweight polycarbonate construction, just 277g
- Extensive range of optional accessories

Designed in the United Kingdom, with its long sea-faring tradition, the HT20 is the latest VHF marine radio to be launched by the renowned commercial marine radio manufacturer, Entel.

When the going gets rough, you'll be impressed by the HT20's rugged Mil-Std 810 durability, its water-tight IP67 submergibility rating, rubberised side-grips and overall quality construction. Even with gloved fingers, you'll find its keypad buttons easy to navigate.

With its large, back-lit LCD screen, the HT20 is more than a match for poor light conditions, while its exceptionally loud, punchy audio will just keep on going - all powered by a long-lasting 2000 mAh lithium-ion battery pack.

No matter if you're sailing in International, US or Canadian waters, the HT20 can effortlessly switch between their respective marine VHF channel schemes, while its robust multi pin accessory connector allows for the flexibility offered by any one of an extensive range of accessories, from earpieces to remote speaker microphones.

With a proven track record of producing market leading commercial marine radio products, the HT20 is the "no compromise" culmination of Entel's wealth of design experience and engineering excellence. All this quality at a surprisingly affordable price.

Technical Specifications

RF Power output: 5W (high) / 1W (low)
