### Description

GS Composite Carbon Gangways are a leap forward in nautical accessory design and are the first gangways manufactured by the VARTM System. Their extraordinary design, technological innovation and practical value launches GS Composite Gangways into the top tier of nautical equipment manufactures and are now a must-have aftermarket accessory. GS Composite provide a complete range of models and styles, with fixture/fitting options, custom colors, and teak surfacing all available along with a vast number of accessoires. These gangways are fully customisable. In 2009 they were awarded the prestigious DAME Award for design and functionality.

### Features:

- Extremely light and easy to use
- Square shape prevents any wrapping on the torsion
- 0 % corrosion
