Impact

Since oatmeal, for the largest part accounts as a raw product, the consumption of a bar provides an optimal supply of carbohydrate, in addition with a low glycemic index, which means, that the blood sugar rises slowly and stays longer at a constant and slowly declining level. Also, the glycemic index of the added fruits are very low. With the list of ingredients, we illustrate to you the naturalness of this product.

Dosage Ability

Ideal before - during and after exercise, the packed lunch for everyday Serves as a healthy meal replacement in everyday life and provides sustained energy during exercise. Recommended due to its high Stomach-/Intestinal compatibility, also recommended during training / competition. A special baking process ensures the consistency of the bar, by high than at low outside temperatures, and therefore it remains edible well in all situations.
